

Activity report

Andrea Nowak
PSCE President

Marie- Christine Bonnamour
PSCE Secretary General

General Assembly
Athens
16th November 2016

What is PSCE?

How to achieve these interactions?

- To sustain the dialogue between the 3 communities
- To respond and support the Community of Users (CoU) on Secure, Safe and Resilient Societies as launched by DG Home
- To help to bridge practitioners needs to innovation as well as with policy makers

The example of BroadMap

- Initiated in a PSCE Conference (Paris-December 2014)
- PSCE acts as coordinator
- It is practitioner driven (15 practitioners from 15 countries, out of which 8 represent Ministries of Interior)
- It should bring the community of practitioners together (ie. workshop 10 Nov. in Brussels- 58 practitioners)

BroadMap: to do what?

- Validating requirements and defining specifications and solutions for EU Interoperable wireless broadband communication for PPDR
- Defining transition roadmaps on how to reach these objectives

How to achieve these interactions?

- To work with standardisation bodies
 - 3GPP(Global Mobile Technology Standards)
- On October 24, 2016: **Market Representation Status**
First contribution on Mission Critical Applications
 - Regular contacts with ETSI
 - First contacts with CEN CENELEC

What for the industry?

- PSCE was present at the Critical Communications World Congress Amsterdam June 2016
- Presentation planned at the next SMIG Meeting (February 2017- Brussels)

What for the Researchers?

- Connecting with other groups:
 - ✓ Presentation of PSCE at the EARTO meeting (November 2016 Athens)
 - ✓ PSCE will attend the next Security event in Berlin (2017)
- PSCE gathered 4 new topics from discussions in our Brussels conference and proposed to EC for the 2018-2019 work programme

What is next?

- PSCE will continue to work and contribute to strengthen the voice of end-users/practitioners
- PSCE is taking part in the Community of Users animated by the European Commission by DG Home
- PSCE follows the development of 5G by DG Connect

How to stimulate the dialogue between the 3 communities?

- To be the bridge between innovation and the needs
- PSCE have begun preparing the Pre-Commercial Procurement proposal towards topic SEC-04 - Broadband Communication System, due August 2017
- To generate White Papers and Policies

What are the « hot topics »?

- 5 G

Massive investment, PPDR needs start to be taken into consideration

- IOT

PSCE will start to work and define policies

What is next?

- As problems are common, PSCE explores also possibilities to share worldwide the views of the practitioners:

Australia, the US, South Korea

- Very pleased to welcome First Net.

What is next?

- Developing PSCE membership (65 members)

New members:

Practitioners: Hellenic Rescue Team
(application just received).

Industry:

OneSource, Huawei, EchoStar Mobile Ltd

Research: Instituto de Telecomunicações

Debate on terminology

- PSCE statutes: user organisations
- EC is referring to practitioners:
 - A practitioner is someone who is qualified or registered to practice a particular occupation, profession in the field of security or civil protection

PSCE deals with organisations and not individuals

Safety and/or Security?

Is there a need to change? Would this mean a restriction? Does it cover all types of your missions and activities?

Next meetings

- To continue the work on ELSI Guidelines: PSCE at the January 2017 Computers, Privacy and Data Protection (CPDP) conference

- PSCE EVENTS in 2017

May 2017: **Munich**, co-organised with the Bavarian Red Cross

November 2017: **Madrid**, hosted by the Spanish Ministry of Interior
